PROFILE

Product Designer with 4+ years of experience designing mobile and web products for public-sector and non-profit programmes. My focus is public-health platforms, role-aware workflows, modular UX, and interfaces for frontline constraints. I connect research, information architecture, interaction design, reusable systems, and delivery through prototypes, handoff specifications, design QA, and iteration.

EXPERIENCE

Product Designer

APR 2026–PRESENT

Khushi Baby · Non-profit

- Continue designing mobile and web experiences for public-health programmes, connecting field needs, product workflows, and implementation.
- Bring role-aware interactions, reusable design patterns, prototypes, and design QA into a consistent product-design practice.

Senior UI/UX Designer

JAN 2023–MAR 2026

Khushi Baby · Non-profit

- Led UX for multi-module healthcare platforms used by frontline workers, supervisors, facility users, and administrators.
- Redesigned ASHA and ANM workflows, with résumé-reported improvements of ~24% in onboarding completion and ~32% in task time, using pilot/task-timing proxies.
- Designed 100+ Samasta application screens. Reported changes include approximately four fewer steps per critical flow and ~27% lower time to complete.
- Owned ABDM–ABHA aligned workflow and UI requirements; the résumé reports ~30% less certification-related rework and ~35% improvement in audit readiness.
- Designed CHO Soft mobile and dashboard workflows and AI-enabled dashboard UX with explanation, confidence, review, and escalation states.
- Created prototypes, interaction specifications, and implementation notes; reported ~22% better first-pass developer acceptance, tracked through reduced rework cycles.

Associate UI/UX Designer

MAR–DEC 2022

Permute Solutions Pvt. Ltd.

- Established and maintained reusable components for Anarock digital products and the TARP Agile Platform.
- Translated workflows into user flows, wireframes, and clickable prototypes; supported annotated handoff and implementation reviews.
- Designed branding, presentations, social media creatives, and other communication assets.

UI/UX Design Intern

MAY–JUL 2021

Reddway.in

- Designed order-fulfilment interfaces and seller dashboard experiences for account and product management.
- Created responsive promotional and transactional email templates.

CAPABILITIES

Interaction design · information architecture · user flows · wireframing · prototyping · UX writing · usability testing · heuristic reviews · stakeholder interviews · research synthesis.

Design systems · component libraries · role-based access · approval workflows · mobile and responsive web UX · dashboards · accessibility-aware design · low-connectivity and form-heavy workflows.

Developer handoff · interaction rules · edge cases · design QA · cross-functional collaboration · Agile delivery.

EDUCATION

B.Tech · Textile Technology

Shri Guru Gobind Singhji Institute of Engineering and Technology · 2021

Senior Secondary · CBSE

Macro Vision Academy · 2017

REFERENCES

Available on request.

SELECTED WORK

CHIP-2

Mobile and web platform UX for public-health teams, bringing consistent navigation, shared patterns, and role-aware workflows across programme modules.

CHO Soft

Mobile and dashboard experiences for facility workflows, with task queues, supervisor review, and exception handling.

ABDM–ABHA

ABDM–ABHA aligned workflow and interface design, connecting requirements, states, and implementation guidance.

TARP Agile Platform

A reusable component library and workflow communication for the TARP Agile Platform, developed during my Permute Solutions role.

TOOLS

Figma · FigJam · Illustrator · After Effects · Notion · Jira · Asana.

Also experienced with Sketch and InVision.

Frontend literacy

Basic HTML, CSS, Tailwind CSS, Bootstrap, and Chrome DevTools.

LANGUAGES

English · Hindi · Marathi

Samasta

Primary healthcare application design across registration, outpatient services, records, inventory, and related clinical-service workflows.

AI-enabled dashboard

An integrated dashboard experience translating AI model outputs into reviewable information and human-led actions.

Anarock

Reusable components and workflow design for Anarock digital products, developed during my role at Permute Solutions.
